Bulgaria in 2026: what has changed

There is no Bulgarian citizenship by investment. It was repealed by an amending law published in the State Gazette, issue 26 of **1 April 2022**, which struck out articles 12a and 14a of the Citizenship Act. No investment route to Bulgarian citizenship has existed since then.

But Bulgaria joined Schengen in full on **1 January 2025**, and adopted the euro on **1 January 2026**. Both are good news for a residence applicant, the Schengen membership above all: a Bulgarian residence permit now carries Schengen mobility.

Since 1 January 2026 the investor-residence thresholds are expressed in euro. **XIPHIAS confirms the current euro threshold for your route in writing with the Migration Directorate of the Ministry of Interior before filing, and before you commit any funds.**

One thing to settle before you start

These are **residency** programmes, not citizenship. That distinction matters more for an Indian passport holder than for most, because **India does not permit dual citizenship**: under Section 9(1) of the Citizenship Act 1955, voluntarily acquiring another citizenship ends your Indian citizenship automatically.

Holding European **residency** does not affect your Indian citizenship at all. Only naturalising would. So the residence permit is the safe part; the decision point comes years later, if and when you choose to naturalise.
